COPYRIGHT INFRINGEMENT

DEMAND FOR JURY TRIAL

COMPLAINT

Plaintiffs Glacier Films (USA), Inc., and Glacier Films 1, LLC, complain and allege as follows:

JURISDICTION AND VENUE

1. This is a suit for copyright infringement under 17 U.S.C. §§ 101 et seq. (“The Copyright Act”).
2. This Court has subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331 and 1338(a).

3. Venue in this district is proper pursuant to 28 U.S.C. § 1391(b) and 28 U.S.C. § 1400(a) as the defendant is believed to reside in this district.

PARTIES

PLAINTIFFS

4. Plaintiff Glacier Films (USA), Inc., is a Delaware Corporation, a producer of motion pictures and a producer of *American Heist*.

5. Plaintiff Glacier Films 1, LLC, is a Louisiana Limited Liability Company and a motion picture production company.

6. Plaintiffs, Glacier Films (USA), Inc., and Glacier Films 1, LLC, (generally referenced as “plaintiffs” or “Glacier” herein) are each holders of interests in the motion picture *American Heist*, released in 2015. Each of the plaintiffs are suffering notable and irreparable harm through piracy. Plaintiffs come to court seeking relief as the motion picture *American Heist* is currently one of the top downloaded movies through BitTorrent with over 100,000 confirmed infringing Internet Protocol (“IP”) addresses observed in the United States and thousands of those IP addresses believed to be traced to individuals in Oregon.

The Rights of Glacier

7. *American Heist* is a notable motion picture that was scheduled for widespread theatrical release in North American in January of 2015, but was wrongfully released on BitTorrent and is now being widely pirated limiting its ability to gain access to and benefit from conventional market outlets.

8. Glacier Films (USA), Inc. is the registered copyright holder of the completed motion picture *American Heist*, which has been registered with the United States Copyright Office, Registration No. PA 1-938-638, 2015.

9. Glacier Films 1, LLC is the registered copyright holder of the screenplay for *American Heist*, which has been registered with the United States Copyright Office, Registration No. PAU 3-681-371, 2013.

10. The motion picture and screenplay contain original material that is copyrightable subject matter under the laws of the United States.

11. Under The Copyright Act, plaintiffs are the proprietors of copyrights and interests necessary to being suit.

12. The motion picture is currently offered for sale in commerce.

13. Defendant had notice of plaintiffs' rights through general publication and advertising and more specifically as identified in the content of the motion picture, advertising associated with the motion picture, and all packaging and copies, each of which bore a proper copyright notice.

THE DEFENDANT

14. The defendant identified herein as DOE-73.25.111.18 is currently known only by their Internet Protocol ("IP") Address 73.25.111.18 which on 08/03/2015 at 09:01 AM UTC, was observed by plaintiff's investigators, Maverickeye, as infringing the motion picture.

15. Through geolocation, the IP address used by the defendant has subsequently been traced to the State of Oregon.

16. Defendant's IP address has been observed as associated with the peer-to-peer exchange of hundreds of copyrighted titles through the BitTorrent network.

17. The volume and titles of the activity associated with defendant's IP address indicates that the defendant is likely the primary subscriber of the IP address or someone who resides with the subscriber, as such activity indicates the defendant is an authorized user of the IP address with consistent and permissive access.

18. The volume and titles of the activity associated with defendant's IP address indicates that the defendant is not a young child.

19. The defendant's IP address was at that time of observed infringement managed by Internet Service Provider ("ISP") Comcast, who on information and belief, generally assigns an IP address to a single party for extended periods of time, often for months, and provides Wi-Fi systems with notable pre-installed security and passwords.

20. The records maintained by Comcast should be able to identify either the defendant, or the subscriber who contracted with Comcast for service who in turn is likely to have knowledge that will lead to the identity of the defendant.

21. Plaintiffs intend to seek initial discovery to subpoena records from Comcast to ascertain the true identity of the defendant.

BACKGROUND

PEER-TO-PEER INTERNET PIRACY

22. As stated by Congressman Lamar Smith, "Illegal counterfeiting and piracy costs the U.S. economy \$100 billion and thousands of jobs every year."

23. As noted by Senator Levin in Congressional hearings on peer-to-peer Internet piracy, "In the world of copyright law, taking someone's intellectual property is a serious offense, punishable by large fines. In the real world, violations of copyright law over the Internet are so widespread and easy to accomplish that many participants seem to consider it equivalent to jaywalking – illegal but no big deal. But it is a big deal. Under U.S. law, stealing intellectual property is just that – stealing. It hurts artists, the music industry, the movie industry, and others involved in creative work. And it is unfortunate that the software being used – called 'file sharing' as if it were simply enabling friends to share recipes, is helping create a generation of Americans who don't see the harm."

24. In 2013, in recognition of the growing problems and challenges with counterfeiting and piracy, The Oregon House of Representatives passed House Memorial 2, which made the following findings:

Whereas the United States and other nations share the challenge of combating intellectual piracy and the counterfeiting of intellectual property such as ... films... and technologies that affect the quality of life; and

Whereas intellectual piracy and counterfeiting have a significant impact on Oregon's economy, and the economies of other states and of nations around the world, which results in job and earnings losses, reduced tax revenues and increased threats to public health and safety; and

...

Whereas protecting and enforcing intellectual property rights is crucial to the future of our innovation-based economy; and

Whereas industries that use intellectual property extensively generate nearly \$7.7 trillion in gross output and account for more than 60 percent of total exports from our nation; and

Whereas industries that use intellectual property extensively ... employ more than 19 million Americans, whose salaries average about 60 percent higher than salaries in industries that do not make extensive use of intellectual property; and

Whereas intellectual property infringement can undermine the nation's economic security; and

Whereas violations of intellectual property rights, ambiguities in the law and a lack of enforcement create uncertainty in the marketplace and in the legal system and undermine consumer trust; and

Whereas intellectual property, including trademarks, [are] essential ...; and

...

Whereas failing to adequately protect and enforce intellectual property rights will increase counterfeiting and illicit trade;

...

25. As such it is clear that giving effect to 17 U.S.C. §§ 101 et seq., and the enforcement of intellectual property rights, and in particular the fight against counterfeiting and piracy are critical issues of importance to the both the United States of America and the State of Oregon.

26. Internet piracy, and in particular BitTorrent piracy, though known as peer-to-peer file sharing, is often a for-profit business as many software clients, torrent sites and networks which promote and facilitate piracy generate millions of dollars in revenue through sales and advertising.

27. To increase the value of the advertising and sometimes subscription access sold by torrent sites, many parties work to expand the pool of available titles and speed of downloads available by increasing the number of member peers and thus the desirability of their clients and networks. To accomplish this they often reward participants who contribute by giving them faster download speeds, greater access, or other benefits.

28. Defendant's participation in the BitTorrent exchange of plaintiffs' motion picture is the type of activity that torrent sites use to promote their business and likely directly furthered the for-profit business of at least one torrent site.

29. Many parties, and possibly defendant have been compensated for their participation in expanding the availability of pirated content to others through BitTorrent networks, including plaintiffs' movie.

30. The use of BitTorrent does more than cause harm through the simple theft of intellectual property. The BitTorrent distribution of pirated files is a model of business that profits from theft through sales and advertising and provides a system of rewards and compensation to the participants such as the defendant and those working with the defendant, each of whom contribute to and further the enterprise.

31. Based on activity observed associated with defendant's IP address, defendant is a prolific proponent of the BitTorrent distribution system advancing the BitTorrent economy of piracy and causing harm to plaintiffs.
